

A complete live mixing console for macOS.

Your Behringer X32 or Midas M32 handles the stage. Amelis does the whole mix on your Mac.

Specifications

Channels	32 inputs, 16 groups, 16 auxes, 16 FX returns, 8 matrices, LR and Mono
On every channel	Gate, compressor, 8-band EQ with dynamic bands, multiband compressor, 8 plugin slots, delay
On buses	Everything above, plus a 31-band graphic EQ
Plugins	VST3 and Audio Unit, including Waves
Control	8 VCAs, 8 mute groups, 3 custom layers, 16 custom keys
Monitoring	PFL, AFL and SIP, talkback, dim and mono
Metering	Meters on every channel, a meters page, RTA and loudness on the main mix
Shows	Scenes, cue list, setlist import, undo and redo, autosave
Recording	Multitrack recording of inputs and buses, stereo recording of the main mix, virtual soundcheck
Remote control	X32 and M32, MIDI and OSC

What you need

Computer	A Mac; we recommend macOS Tahoe 26.6 or later
Desk	A Behringer X32 or Midas M32, connected through its expansion card
Plugins	Your own VST3 or Audio Unit plugins (optional)
Screen	A touch screen is recommended
Second Mac	For Amelis Remote (optional)
